ERASMUS+ KA1 · TEACHER TRAINING COURSE

Coaching Skills for Student Wellbeing and Resilience

6 Days • Athens, Greece • OID: E10020547

About the course

Students who feel connected, heard and capable are more likely to keep going after a setback. This course shows educators how to bring a coaching approach into everyday teaching: building high-quality connections, listening actively, asking powerful questions and giving constructive feedback that strengthens student wellbeing and resilience.

Participants practise student-led goal setting, self-regulation and co-regulation strategies, use art as a coaching tool and reflect on their own wellbeing, leaving with practical ideas for a more supportive classroom.
