ERASMUS+ KA1 · TEACHER TRAINING COURSE

In the Flipped Classroom

5 Days • Heraklion, Crete • OID: E10020547

About the course

Flipped learning inverts conventional classroom learning: students are introduced to the material before class, and class time is used to deepen understanding through discussion with peers and problem-solving, with the teacher as facilitator and coach.

The course shows how online content creation and distribution tools make flipped lessons easy to deliver, moving students from passive to active learning and building essential 21st-century skills.
