ERASMUS+ KA1 · TEACHER TRAINING COURSE

Sustainability and Climate Change Education

5 Days • Malaga, Spain • OID: E10098723

About the course

A practical course that helps educators integrate sustainability, climate action and environmental literacy into school curricula, with concrete strategies and ready-to-use tools for embedding sustainable thinking in everyday teaching.

Participants strengthen their capacity to lead climate-focused initiatives across subjects and build a whole-school approach aligned with European sustainability priorities, from interdisciplinary activities and circular economy projects to student-led campaigns.

Course at a glance

Duration: 5 training days

Location: ErasmusLearn Training Center, Malaga, Spain

Language: English (B1 or higher recommended)

Who it's for: Kindergarten, primary and secondary teachers, school leaders

Level: Introductory, open to all

Certificate: Certificate of Attendance

Funding: Eligible for Erasmus+ KA1 (course fees)

OID: E10098723

What you will learn

- Understand the foundational concepts of sustainability
- Connect local environmental challenges to classroom learning
- Develop interdisciplinary climate education activities
- Apply circular economy principles in school projects
- Support student activism and sustainable communities
- Design school-wide environmental campaigns
- Lead a whole-school approach to sustainability

How you will learn

Lectures, practical exercises, discussions, teamwork and role-playing, leading to a final project and an implementation plan for each participant's school.

Course language

English. B1 level or higher is recommended. Practical, hands-on activities make it easy for everyone to take part with confidence.

What's included

- Europass Mobility.
- Certificate of Attendance, for participants who attend at least 80% of the course.
